PROFILE

Passionate Full-Stack Developer focused on building modern, performant and scalable web applications. Experienced in frontend development with React.js and Next.js, and backend development with Node.js / Express.js, Laravel and PHP. Skilled in designing REST APIs and managing MongoDB and PostgreSQL databases (with Prisma). Able to design and deploy complete end-to-end solutions, from back-office tooling to automated notifications (WhatsApp/SMS/email via Twilio).

EXPERIENCE

Web Developer (Internship) — Media Leo Tech

Agadir, Souss-Massa, Morocco · On-site · May 2026 – Jun 2026 (2 months)

- Worked with a team to build a qualified leads acquisition system.

PROJECTS

MenuDar — SaaS Digital Menu Platform for Restaurants

- Multi-tenant platform letting Moroccan restaurant owners create QR-code digital menus and receive orders online — no app required for customers.
- Multilingual menu (Arabic, French, English) with cart and real-time order submission.
- Order management dashboard and instant restaurant owner notification via WhatsApp (Twilio API).

Stack: Next.js 14, TypeScript, PostgreSQL, Prisma, Tailwind CSS, Twilio, next-intl, Zustand

Sahara Wheels — Vehicle Rental Management Platform

- Operational platform for motorcycle and car rental businesses in Morocco: centralized reservations and automated PDF contract generation.
- Automated WhatsApp/SMS/email notifications and incident tracking with photo documentation.
- Live analytics dashboard with KPIs, revenue trends and occupancy rates.

Stack: Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS, Twilio

BoviTrack — Smart Cattle Herd Management Platform

- Operational dashboard for farmers to manage bovine herds: animals, parcels, feed rations, stock, health records, suppliers and finances.
- KPIs (average daily gain, cost/kg), phase breakdowns, active alerts and upcoming treatment reminders.
- Integrated AI assistant (BoviAI) with secure authentication and a fully responsive interface.

Stack: Next.js, React, Tailwind CSS

FinanceTracker — Personal Finance Tracker

- Full-stack app with secure JWT authentication, a dashboard (summary cards, charts) and deep spending analytics.
- Transaction management with filtering and export, monthly category budgeting with progress bars.
- Dark mode and fully responsive mobile-first design.

Stack: React, Node.js, Express.js, MongoDB, JWT

SKILLS

Frontend

React, Next.js, JavaScript, TypeScript, Tailwind CSS, CSS/SCSS

Backend

PHP, Laravel, Node.js, Express.js, Python, REST APIs

Tools & Data

MongoDB, PostgreSQL, Prisma, Git & GitHub, Docker, Figma
